

# PASEO PADRE PARKWAY DETOUR ROAD TO OPEN NOTICE

Update on the Washington Boulevard/  
Paseo Padre Parkway Grade Separation Project

August 2007

## **DETOUR ROAD TO OPEN FOR PASEO PADRE PARKWAY**

As part of the Grade Separation Project, the contractor is planning to shift traffic onto the new temporary detour road for Paseo Padre Parkway located between Hancock Drive and Shadow Brooke Common on September 12, 2007. Please read below for more information on what to expect during this transition.

### **How will traffic patterns change on Paseo Padre Parkway?**

- The detour road will have one lane of traffic in each direction as traffic studies have determined a single lane in each direction should adequately handle traffic in this location, although additional delays may occur during train crossings.
- Beginning the week of August 27th, traffic on the existing Paseo Padre Parkway will be reduced to one lane of traffic in each direction to prepare for the shift onto the new detour road.
- Traffic will be shifted onto the new detour road on September 12th, pending weather or other unforeseen circumstances. The detour road will be located north of the existing Paseo Padre Parkway.
- Although there will not be a median on the detour road, motorists will not be allowed to make a left turn from northbound Paseo Padre Parkway onto Shadow Brooke Common while the detour road is in place. Once the new Paseo Padre Parkway is opened, motorists will be able to make a left turn from Paseo Padre Parkway onto Shadow Brooke Common and make only right turns from Shadow Brooke Common onto Paseo Padre Parkway, as they currently do.
- **At all times, access through the Paseo Padre Parkway corridor will remain open.** Traffic signs will be placed to direct traffic through the area.

## **WHAT TO EXPECT DURING CONSTRUCTION**

**Hours:** Construction activities around Paseo Padre Parkway will occur primarily between the hours of 7:00 a.m. to 7:00 p.m. Monday – Friday and if necessary, 8:00 a.m. to 6:00 p.m. on Saturday.

**Railroad Crossing:** A new temporary railroad crossing will be constructed for the Paseo Padre Parkway detour road to ensure the train crossing remains safe. Throughout the project, drivers should remain vigilant of traffic flow along Paseo Padre Parkway and Washington Boulevard, near the railroad crossings, and around construction crews.

**Duration:** The temporary detour road will be in place for approximately two years at which point traffic will be shifted onto the new roadway.
